HARVARD MEDICAL SCHOOL

Dear Colleague,

There's value in your knowledge and body of work. Developing expert communication skills will enable others to tap into this value, and let your ideas achieve national and international recognition and impact.

Talk to alumni of this course and you hear an inspiring array of successes that they credit, in large measure, to the time and effort they invested in honing their communication skills. Many of them have led changes in healthcare, published award-winning books, and routinely appear as experts on television and radio.

If you are reading this brochure, it is likely that you are a highly educated healthcare professional who already has very good communication skills, both written and verbal. This course will help you hone and diversify these skills and arm you with best strategies for modern-day communication.

You can rely on the 2018 program to help you connect with publishing experts as well as keep up with current communication strategies and options for healthcare professionals. In the past, the focus was on publishing books. Today, book publishing is a very important part of the course, but it's not the sole focus. The course now has a broader charter consistent with a world dominated by the internet, social media, and instantaneous connectivity.

Traditional book publishing takes about two years from proposal to finished product. A blog can take two hours and a tweet can take 20 seconds. All are potent mediums for healthcare communication.

I have seen this course alter the trajectory of its attendees' careers. The education you will receive, as well as the contacts you will make, can be truly life changing.

I hope you will join us in April for this unique educational and networking opportunity.

Agenda

Optional Workshops

Developing and Delivering Persuasive Pitches: Oral Book Pitches and Elevator Pitches

Thursday, April 26 • 4:00 pm-5:15 pm

Receptivity to a book or business idea often hinges on a minute or two in front of the right people. Oral book pitches and elevator pitches can be defining moments for your work. This workshop helps you make the most of that pivotal moment.

At this Thursday afternoon workshop, participants get expert advice to develop and refine their pitch. Further practice is offered during breaks on Friday, and then on Friday afternoon or Saturday morning, participants are given 70 seconds to verbally pitch their book (or other idea) to a panel of editors, literary agents, and publishing professionals. At the conclusion, the panelists provide instant, constructive, written feedback designed to help you hone your pitch.

Please note:

- You may attend this Thursday, April 26 workshop and develop your pitch, but opt not to deliver your pitch to an audience on Friday or Saturday.
- No on-site registrations will be accepted for this workshop.
- This workshop is limited to the first 100 registrants.
- Some past participants of this course have had editors and agents sign deals on ideas they pitched during this session.

Writers Workshop A: Thursday, April 26 • 7:00 pm-8:45 pm

Writers Workshop B: Friday, April 27 • 7:00 pm-8:45 pm

Boost the impact of your writing by having it critiqued by a publishing professional who is an expert in healthcare publishing.

The workshop instructors will review a sample of your writing that you are invited to submit (this is optional) approximately one month prior to the course. During the workshops, the instructors lead small-group discussions — with no more than 10 attendees — about the strengths and opportunities for improvement in each participant's writing sample.

Not only do you receive valuable feedback on your own writing, but you will gain crucial insights from the discussion of your peers' writing. You are invited to participate in these workshops even if you don't have a writing sample—the tips you get from the critique of others' work make them well worth attending.

NOTE: While not required, most attendees participate in both Writers Workshops A & B. When enrolling for both of these evening workshops, you will be placed with different instructors to afford you access to different perspectives, skills development, and support to meet your writing and publishing goals.

Advanced Workshops (select one)

Saturday, April 28 • 1:00 pm-4:00 pm

Social Media Bootcamp

Rusty Shelton

A special 3-hour immersive workshop for healthcare professionals who want a current understanding of the uses, career-building attributes, infrastructure, time requirements, benefits, and risks of social media. The velocity of communication is also examined — how you can garner attention in as little as one week. Take home resources to start or refine your social media infrastructure, including your website, blog, Twitter account, Facebook page, LinkedIn profile, Google+, and Pinterest presence.

Writing a Winning Book Proposal

Martha Murphy and Lisa Tener, MS

Led by award-winning authors and writing coaches, this 3-hour workshop will help you to start or develop your book proposal. Capture an editor's attention in the first few lines and develop each section in a sophisticated manner. Optimize the content, length, and approach of your book proposal while conveying your passion and staying true to your unique voice.

Techniques to Maximize Creativity

Shelley Carson, PhD

This special 3-hour workshop focuses on the writer's creative process and how this process can be enhanced to improve your work. The workshop leader, an expert in behavioral/neurocognitive approaches to creativity, will educate you about the specific brain activation states associated with creativity and how they engage when you are writing. Participants leave this workshop with specific techniques to enable them to maximize their creative efforts in their limited writing time and to avoid "writer's block."

Memoir Writing

John Hanc

This interactive 3-hour workshop delves into techniques of memoir writing and will help you to make your personal narrative stand out. The topics covered include, but are not limited to: the construction and value of narrative voice; the five essential ingredients of the first-person essay; how to read your own work as an editor would; and how research can bolster your writing.

Transforming Your Writing from Good to Great

Susan Aiello, DVM, ELS

This 3-hour skills-development workshop helps participants take their writing skills to the next level. Explore how word choice affects the precision and clarity of your writing and how misused words can compromise its credibility. Get professional advice about which commonly cited rules of sentence structure can and cannot be overlooked. Leave this workshop with concrete ideas to improve your writing by identifying and correcting jargon, obfuscation, and verbosity.

Getting Started in Self-Publishing

Randy Kamen, EdD

Many of the hurdles and barriers to getting traditionally published have led prospective authors to explore self-publication as an effective means for delivering their content and message. This 3-hour strategy-based workshop takes writers who are considering self-publication out of the mire of this complex and confusing undertaking. Learn practical, realistic solutions, strategies, and tips — and feel empowered as you move through this exciting process.

Registration, Payment, Confirmation, and Refund Policy

Registrations for Harvard Medical School CME programs are made via our secure online registration system. To register for this course, please visit the course website at WPS.HMSCME.com.

At the end of the registration process, a \$5 non-refundable processing fee will be added to your registration, and you will have the choice of paying by check or credit card (Visa, MasterCard, or American Express). If you are paying by check (draft on a United States bank), the online registration system will provide you with instructions and a printable form for remitting your course fees by check. Postal, telephone, fax, and cash-payment registrations are not accepted. All fees shown in USD.

Upon receipt of your paid registration, an email confirmation from the HMS GCE office will be sent to you. Be sure to include an email address that you check frequently. Your email address is used for critical information, including registration confirmation, evaluation, and certificate. Refunds, less an administrative fee of \$75, will be issued for all cancellations received two weeks prior to the start of the course. Refund requests must be received by email. No refund will be issued should cancellation occur less than two weeks prior. "No shows" are subject to the full course fee and no refunds will be issued once the conference has started.
